SUMMER CAMP
JULY 1ST-26TH 2013
Four Weeks of Learning, A Lifetime of Memories
Introduction
The goal of our Summer School is to bring students valuable and fun filled learning experiences. Our introductory program has a wide range of educational activities for students to choose from. We sincerely hope that our programs will be of interest to you.

Language of Instruction

English is used for all courses. Children with limited English proficiency will benefit from a complete English immersion program.

**Cost**

*Early Bird Special!!!*
MOP 120.00 per hour for applications received by the school on or before Friday, May 17th 2013

**Application Procedures**

Using the timetables on the following pages, complete the enrolment form and your proposed timetable. Please pay attention to the grade range of activities. The grade ranges apply to the grade the student will attend in September 2013.

Make sure that you indicate clearly on the proposed timetable your first and second choices. Follow the example and fill in the timetable accurately. Remember to fill in the appropriate course codes.

Confirmed timetable will be sent to all participants by the middle of June.

The summer program runs for four weeks. We encourage parents to enroll their child in each course for all 4 weeks in order to benefit from the longer term of immersion in an English-speaking environment. However, applicants may choose to enroll in any one of the four weeks as course work is designed by weekly session. Usually, most students attend our summer program for all three hours.

Return the application form, together with full payment and the medical form to the Summer School Office.

Please make the cheque payable to: "The International School of Macao"

Applicants will be placed in activities on a first-come, first-serve basis. Return your form promptly to ensure a successful application. Late applications may not be successful as enrolment fills quickly. If a course is cancelled, you will be informed by June 14th 2013.

**The deadline for the Early Bird Special is**

**Friday, May 17, 2013**

Limited bus service available.
Please ask for details at the office.

**Confirmation**

Your choice of courses will be confirmed in mid June by fax, mail, email or by a phone call. Along with the timetable, you will receive further information pertaining to operational procedures of the summer school. An official receipt of the school fees will be issued to you on or before you child’s first day of school.

We look forward to receiving your application.

Should you have further inquiries, please contact the summer school secretaty at : +853 28533700, fax: +853 28533702 or the summer school principal, brenda.doucette@tis.edu.mo
Payment Calculation

MOP 120 or MOP 135

\[ \text{Number of lessons} \times \frac{\text{hours per day}}{\text{days}} \times \text{Number of days} \]

Example:

A child is taking Creative Expressions, which runs for 3 hours for all weeks.

If the application is received by the school:

On or before May 17th 2013
MOP 120 x 3 hours x 20 days
Total amount: MOP 7,200.00

After May 17th 2013
MOP 135 x 3 hours x 20 days
Total amount: MOP 8,100.00

Please note that there will be no refunds during Summer School for the following reasons:

1. Student illness
2. School closure due to inclement weather

REGISTER EARLY TO GET THE COURSE OF YOUR CHOICE.
001 - BEST START
Age level: 2 & 3 years old
Time: 8:30am - 11:30am / 12:30pm - 3:30pm

This exciting introductory course has been designed to provide your child with the BEST START to their academic debut in the full day Kindergarten program. Children will tap into their imagination through dramatic expression using music, drama, dance and visual art. It is a hands-on action packed opportunity for children to role-play, socialize and express themselves through a variety of mediums.

002 - CREATIVE EXPRESSION
Age level: 4 years old
Time: 8:30am - 11:30am / 12:30pm - 3:30pm

This Summer we will capture your child’s imagination through a “hands on” approach. This course will tap into your child’s creative side through dramatic expression with a focus on music, drama, dance and visual arts. With a strong emphasis on English vocabulary, your youngsters will explore their self-expression in speaking, listening and singing activities.

003 - LET’S COMMUNICATE
Age level: 5 years old
Time: 8:30am - 11:30am / 12:30pm - 3:30pm

Your child’s English communication skills will be enhanced by attending this exciting course. Through the use of music, poetry, puppetry, and visual arts, your child will develop a wider English vocabulary as well as refine their listening and speaking skills. Engaging read-alouds and various shared reading activities will create a solid foundation for inquiry while improving your child’s level of English.
004 - CREATIVE ENGLISH
Age level: 6 years old
Time: 8:30am - 11:30am
This fun filled English Course is designed to help students improve their English and vocabulary skills through hands on learning. Students will engage in a wide variety of activities including drama, dance, singing, cooking, computers and crafts. All of these activities are designed to improve English skills while still ensuring students enjoy their summer. Students will have the opportunity to study some of their favourite storybooks and create their own short stories through creative writing and drawing.

005 - CREATIVE ENGLISH
Age level: 7 years old
Time: 12:30pm - 3:30pm
This course is designed to strengthen students reading, writing and speaking skills. Through drama, singing, dancing, reading, writing, computers, arts and crafts and cooking, students will enjoy working on their English skills and building their vocabulary in a fun way. Students will have the opportunity to study some of their favourite storybooks and will enjoy writing and illustrating their own book throughout the 4 weeks. Students will also be exposed to poetry and participate in word games and rhymes.

006 - CREATIVE ENGLISH
Age level: 8 years old
Time: 8:30am - 11:30am
This course is designed to strengthen students’ ability to speak fluently and write creatively in English. Through use of story retell, dramatizations, puppetry and choral reading, the students will improve their English usage. The integration of art and music will enable the students to present their ideas creatively. Computer time will allow students to further develop vocabulary. The highly successful Accelerated Reader program will play an important part in this course.

007 - CREATIVE ENGLISH
Age level: 9 years old
Time: 12:30pm - 3:30pm
This course is designed to build the students’ confidence when reading, writing, listening and speaking English. Through weekly themes, students will focus on developing their skills for the next grade level. Publishing of prose and poetry will be done in the computer lab. Research skills and sorting of information will be two areas of focus based on the weekly theme. The highly successful Accelerated Reader program will play an important part in this course. The students will engage in guided independent reading at their “just right” level. This research-based program has been proven to motivate students and accelerate reading growth.

008 - INTERACTIVE ENGLISH
Age level: 10 years old
Time: 08:30am - 11:30am
Interactive English is a course designed to help children improve their English skills and vocabulary using the Accelerated Reader Program. Students will also participate in interactive Smartboard activities and use a variety of computer programs. The activities in this course will be centered on a different theme every week aiming at rapid age-appropriate word acquisition and knowledge building via fun and meaningful learning processes.

009 - INTERACTIVE ENGLISH
Age level: 11 years old
Time: 12:30pm - 3:30pm
Interactive English is a course designed to help children improve their English skills and vocabulary using the Accelerated Reader Program. Students will also participate in interactive Smartboard activities and use a variety of computer programs. The activities in this course will be centered on a different theme every week aiming at rapid age-appropriate word acquisition and knowledge building via fun and meaningful learning processes.
010 - COMPUTER
Age level: Grade 1 - 6
Time: 8:30am - 11:30am
A hands-on experience in technology designed for elementary students. In this course we focus on techniques that give students the ability to navigate the Macintosh operation system. Participants will become familiar with the access, creation, managing and the saving of projects in a variety of files types. This course will also focus on skills such as keyboard shortcuts, internet, combining text, graphics and research to create projects for school and free time. All activities will be completed using the Macintosh operating system.

012 - Visual Arts
Age level: Grade 1 - 6
Time: 8:30am - 11:30am / 12:30pm - 3:30pm
The Visual Arts course is designed to expand and enrich student's experience in the arts. It will allow students to express their ideas using a variety of techniques and media. Art projects will be based around a theme enabling students to work with a variety of materials. The themes of Under the Sea, Crazy Critters and Animals in Art will enable the students to create and explore whilst also learning the vocabulary of art. This fun filled course will allow your child to express his ideas creatively.

011 - DRAMA
Age level: Grade 1 - 6
Time: 08:30am - 11:30am / 12:30pm - 3:30pm
Drama is both an art form and a medium for learning. It can develop the whole person - emotionally, physically, intellectually, imaginatively, and socially - by giving form and meaning to experience through acting out. It fosters positive group interaction as students learn to make accommodations in order to pursue shared goals. The overall goal of drama is to foster a positive self-concept in students by encouraging them to explore life by the assumption of roles and by the acquisition of dramatic skills. This course will help students increase their confidence, allow them to express themselves openly in a variety of ways and assist with language acquisition as well.

013 - Fun in the kitchen
Age level: Grade 1 - 6
Time: 08:30am - 11:30am / 12:30pm - 3:30pm
This course is designed to introduce your child to the joy of cooking good healthy food, while at the same time providing them with an opportunity to apply their Mathematic skills in a practical situation. Along the way they will continue to develop their English language skills as they put words to cooking techniques, utensils and materials.
014 - SPORTS SKILLS DEVELOPMENT
Age level: Grade 3 - 6
Time: 8:30am - 11:30am

This course is a skills development program emphasizing speed, power, agility, reaction and quickness (SPARQ). We will be learning and developing the sport of volleyball and basketball with the basic components of dynamic training and the importance of plyometrics and biomechanics as a part of a total body work-out in order to improve their strength and power in all planes of movement.

Students will learn the importance of teamwork, discipline, leadership, and sportsmanship. Students will experience team strategies in offense and defense in real game settings.

015 - THE NUTS AND BOLTS OF ROBOTICS
Age level: Grade 4 - 6
Time: 8:30am - 11:30am / 12:30pm - 3:30pm

A hands-on experience designed to introduce students to the world of robotics. We will be using the Lego NXT Robot kit. The students will design, build, program and test their robots to perform various tasks. The students will work in partners and have lots of opportunity to be creative and showcase their own problem solving skills. Competitions will be held at the end of each task for those students that choose to compete.
016 - SENIOR ENGLISH
HOW DID I EVER SURVIVE
WITHOUT IT
Age level: Grade 7 & 8
Time: 8:30am - 11:30am

The aim of English Language Arts is to enable each student to understand and appreciate language, and to use it confidently and competently in a variety of situations for communication, personal satisfaction and learning. Students will have opportunities to become more confident and competent users of all six Language Arts. They will have ample opportunities to listen, speak, read, write, view and represent to: Explore thoughts, ideas, feelings and experience; Comprehend and respond personally and critically to oral, print and their media texts; Manage ideas and information; Enhance the clarity and artistry of communication; and Respect, support, and collaborate with others. We will study a novel, read and reflect on short stories, write a narrative, practise our paragraph writing skills, read articles and newspapers, write letters, prepare a report, create a poster, make presentations, practise our grammatical skills and focus on vocabulary development.

017 - INTENSIVE MATH FOR SENIOR STUDENTS
Age level: Grade 7 - 8
Time: 12:30pm - 3:30pm

This course is designed for grade seven and eight students who wish to improve their mathematic skills. It follows the Alberta mathematics curriculum and will ultimately help all students prepare for the year ahead. Topics will include: Developing number sense, using patterns to describe the world and to solve problems, describe the characteristics of 3-D objects and 2-D shapes and analyze the relationships among them, describing and analyzing position and motion of objects and shapes, collecting, display and analyze data to solve problems, using direct and indirect measurement to solve problems and representing algebraic expressions in multiple ways. Evaluation will be meaningful and carried out on a regular basis.

018 - INTERACTIVE SCIENCE FOR SENIOR STUDENTS
Age level: Grade 7, 8 & 9
Time: 12:30pm - 3:30pm

This course is designed to assist students with Science skills. It is curriculum based and will assist the students to meet the requirements of their present grade level and better prepare them for the new term. Evaluation will occur on a regular basis to ensure that students fulfill the required expectations of the course curriculum.

019 - INTENSIVE ENGLISH:
CROSS-CURRICULUM WRITING SKILLS
Age level: Grade 9
Time: 12:30pm - 3:30pm

The aim of English Language Arts is to enable each student to understand and appreciate language, and to use it confidently and competently in a variety of situations for communication, personal satisfaction and learning. Students will have opportunities to become more confident and competent users of all six Language Arts. They will have ample opportunities to listen, speak, read, write, view and represent in a variety of combinations and relevant contexts. Students will listen, speak, read, write, view and represent to: Explore thoughts, ideas, feelings and experience; Comprehend and respond personally and critically to oral, print and their media texts; Manage ideas and information; Enhance the clarity and artistry of communication; and Respect, support, and collaborate with others. We will study a novel, read and reflect on short stories, write a narrative, practise our paragraph and essay writing skills, write letters, prepare a report, make presentations, read poetry and learn poetic terminology, practise our grammatical skills and focus on vocabulary development.
020 - MATH FOUNDATION FOR SENIOR STUDENTS

Age level: Grade 9
Time: 8:30am - 11:30am

This course is equivalent to the Math 10 prep course and is designed for grade nine and ten students wishing to improve their mathematic skills. It follows the Alberta mathematics curriculum and will ultimately help all students prepare for the year ahead. Topics of study will include: Developing number sense, using patterns to describe the world and to solve problems, describe the characteristics of 3-D objects and 2-D shapes and analyze the relationships among them, describing and analyzing position and motion of objects and shapes, collecting, display and analyze data to solve problems, using direct and indirect measurement to solve problems and representing algebraic expressions in multiple ways. Evaluation will be meaningful and carried out on a regular basis.

021 - SPORT DEVELOPMENT

Age level: Grade 7 - 9
Time: 12:30pm - 3:30pm

This course is a skills development program emphasizing speed, power, agility, reaction and quickness (SPARQ). We will be learning and developing the sport of volleyball and basketball with the basic components of dynamic training and the importance of plyometrics and biomechanics as a part of a total body work-out in order to improve their strength and power in all planes of movement.

Students will learn the importance of teamwork, discipline, leadership, and sportsmanship. Students will experience team strategies in offense and defense in real game settings.
